NEW COLLECTION

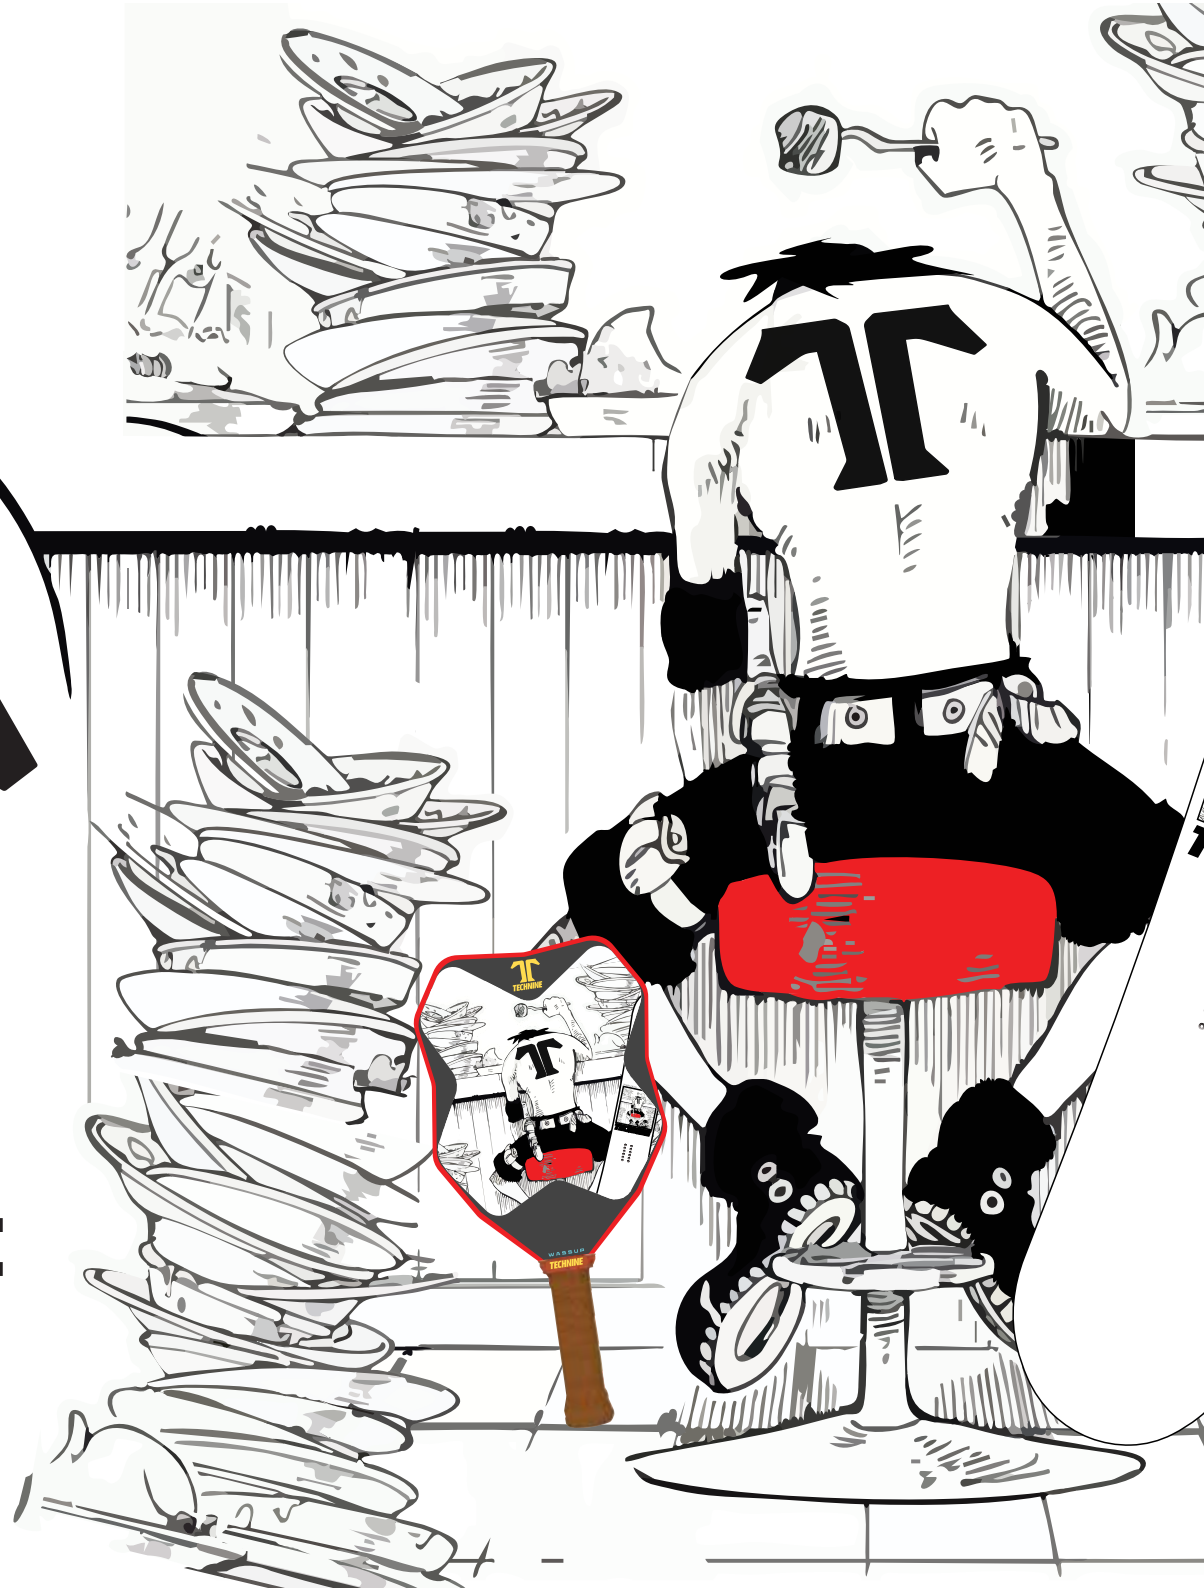

BACK TO THE ORIGINAL IDEA

Pickleball started in 1965 with a simple idea: get people together and have some fun
Grab what's around. Figure it out. Play
We can get behind that
Technine comes from snowboarding.
A culture of progression, creativity, and doing things a little bit differently
We've spent decades messing with shapes,
questioning construction, and obsessing over the details
All in the name of a better ride
Turns out, that curiosity works on a court too
So we took our experience and started playing with paddles
New shapes, modern materials, the latest technology and a little Technine attitude
Some of it looks different ? Good !
We're not here to change the game
We're here to play it our way
Have fun with it
See you on the court

T300 CARBON LAYER

Carbon fiber reinforcement engineered for consistent response, structural stability and a solid feel.

5" PERFORMANCE HANDLE

A compact handle configuration designed to keep the paddle responsive and connected in fast exchanges.

Built around an entirely new hybrid-wide geometry, this paddle brings a distinctive approach to paddle design. Its angular profile expands the hitting platform while maintaining a compact, responsive feel in hand. A T300 carbon fiber layer, Teflon weave texture, polypropylene honeycomb core and perimeter edge foam work together to create a stable, controlled and confidently solid playing experience.

ENGINEERED FOR Players seeking a larger, confidence-inspiring hitting surface without giving up quick handling and responsive control.

Average Weight: 8.0 oz

Grip Length: 5.0"

Grip Circumference: 4.25"

Paddle Height: 16.0"

Paddle Width: 7.75"

Core Thickness: 16mm

TEFLON WEAVE TEXTURE

A textured surface treatment designed to enhance ball interaction and provide a distinctive technical finish.

PP HONEYCOMB + FOAM + EVA EDGES

Polypropylene honeycomb construction surrounded by perimeter foam for increased stability and a more supported hitting surface.

MAORI

This paddle combines an elongated performance profile with an EPP foam core and EVA perimeter construction, creating a paddle designed around reach, precision and a composed feel at impact. Its 5.5" handle provides additional leverage and room for two-handed backhands, while the T300 carbon construction delivers a responsive playing surface.

ENGINEERED FOR Control-oriented players looking for extended reach, precision and a more dampened, connected feel.

Average Weight: 7.9 oz

Grip Length: 5.5"

Grip Circumference: 4.25"

Paddle Height: 16.5"

Paddle Width: 7.5"

Core Thickness: 16mm

T300 CARBON LAYER

Carbon fiber reinforcement engineered for consistent response, structural stability and a solid feel.

5.5" EXTENDED HANDLE

Additional handle length provides greater reach and leverage while accommodating two-handed backhands.

CLAVA

TEFLON WEAVE TEXTURE

A textured surface treatment designed to enhance ball interaction and provide a distinctive technical finish.

EPP FOAM CORE + FOAM EDGES+ EVA EDGES

Expanded polypropylene foam construction engineered to provide a more dampened, controlled response with consistent energy distribution across the paddle face.

NOMUSS

T300 CARBON LAYER

Carbon fiber reinforcement engineered for consistent response, structural stability and a solid feel.

5.5" EXTENDED HANDLE

Additional handle length provides greater reach and leverage while accommodating two-handed backhands.

Built for fast, aggressive play, the NOMUSS combines an edgeless elongated profile with a thermoformed PP honeycomb core and EVA edges for a clean, responsive feel. Its streamlined construction reduces unnecessary perimeter bulk while the elongated geometry and 5.5" handle provide added reach and leverage. A T300 carbon surface with coated with particles completes a performance-driven design engineered for quick handling, controlled acceleration and connected ball response.

ENGINEERED FOR Intermediate to advanced players seeking quick handling, extended reach and responsive performance in an edgeless construction.

Average Weight: 7.9 oz

Grip Length: 5.5"

Grip Circumference: 4.0"

Paddle Height: 16.4"

Paddle Width: 7.2"

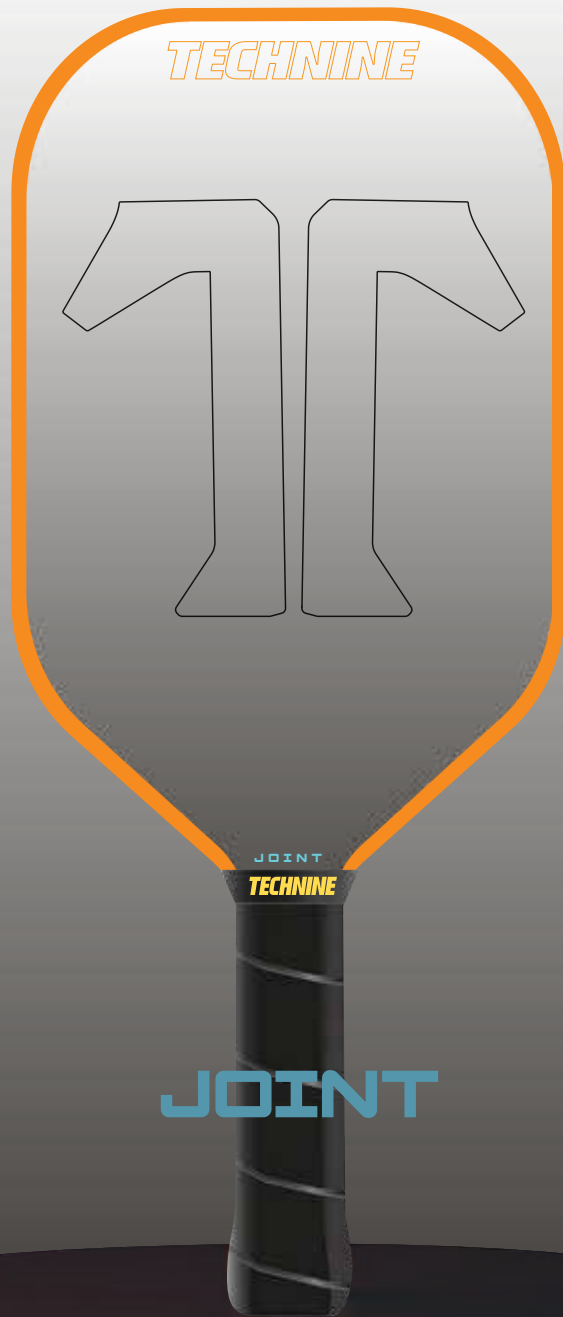

Core Thickness: 15mm

PP HONEYCOMB CORE + EVA EDGES

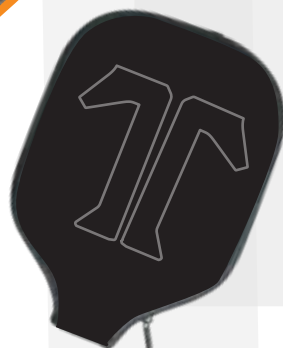

Polypropylene honeycomb construction surrounded by perimeter foam for increased stability and a more supported hitting surface.

EDGLESS CONSTRUCTION

A streamlined perimeter design eliminates the tradition edge guard for a cleaner profile and more direct playing feel.

JOINT

MASS

Built for intermediate players, the JOINT AND THE MASS with elongated and wide shape and a semi-thermoformed PP honeycomb core, EVA edges and edge guard. The result are 2 affordable responsive racket with a generous sweet spot. Elongated geometry and 5.5" handle for the JOINT provide added reach and leverage. Wide geometry and 5.0" handle for the MASS provide a forgiving ball impact. Easier control and precision are the result for both these rackets.

ENGINEERED FOR Intermediate to players seeking quick handling, extended reach and responsive performance.

Average Weight: 8.0 or 8.2 oz
Grip Length: 5.5" or 5.0"
Grip Circumference: 4.25"
Paddle Height: 16.5" or 16.2"
Paddle Width: 7.3" or 7.7"
Core Thickness: 16mm

T300 FIBERGLASS LAYER (MODEL MASS)

Fiberglass reinforcement engineered for fast response, and precision.

T300 CARBON LAYER (MODEL JOINT)

Carbon fiber reinforcement engineered for consistent response, structural stability and a solid feel.

PP HONEYCOMB CORE + EVA EDGES

Polypropylene honeycomb construction surrounded by perimeter foam for increased stability and a more supported hitting surface.

5.5" EXTENDED HANDLE (MODEL JOINT)

Additional handle length provides greater reach and leverage while accommodating two-handed backhands.

5" PERFORMANCE HANDLE (MODEL MASS)

A compact handle configuration designed to keep the paddle responsive and connected in fast exchanges.

ACCESSORIES

STANDARD 3 pieces

KEY FACTS
Fits in conventional backpacks
Light and solid
All-round for the entire family
Round shaft

Weight: 900 g
Length: 180 - 220 cm
Blade size: 47,5 x 19,5 cm

SCHOOL 2 pieces

KEY FACTS
Fits in conventional backpacks
Light and solid
All-round for the entire family
Round shaft
Rubber red protection

Weight: 980 g
Length: 170 - 225 cm
Blade size: 47,5 x 19,5 cm

KAYAK 4 pieces

KEY FACTS
Fits in conventional backpacks
Light and solid
All-round for the entire family
Round shaft
Two possibilities of use:
1) kayakstyle
2) sup

Weight: 1000 g
Length: 180 - 220 cm
Blade size: 47,5 x 19,5 cm

CARBON #1 3 pieces

KEY FACTS
Fits in conventional backpacks
Extremely stiff
85 % carbon, 15 % glass

Weight: 520 g
Length: 180 - 220 cm
Blade size: 47,5 x 19,5 cm

HAPPINESS 3 pieces

KEY FACTS
Fibreglass
Fits in conventional backpacks
Ultra light and solid
Floats on water

Weight: 600 g
Length: 180 - 220 cm
Blade size: 40,0 x 22,0 cm

CAMO 3 pieces

KEY FACTS
Fibreglass
Fits in conventional backpacks
Ultra light and solid
Floats on water

Weight: 600 g
Length: 180 - 220 cm
Blade size: 40,0 x 22,0 cm

WATERPROOF BAGS

KEY FACTS:

Excellent material
High-frequency weld
Waterproof & sandtight
Wear resistant
Easy to store, fold and transport
Can be used as a buoyancy aid
Carrying straps
Quick release lock
Sizes: 20, 40 Litres
Color Matt Black

SUP SEATS

Aluminum Frame Seat

Soft Frame Seat
4 straps

COILED LEASHES

KEY FACTS: Ankle leash - 2 swivel joints
Quick release tab - Neoprene cuff
Thickness: 8 mm - Length: ca. 305 cm (stretched)

ISUP DISPLAY STAND

iSup Display Stand 1

KEY FACTS

Inflatable - Thickness 6" - Size Hole 16" x 6"
Size Base 2' x 2' x 6"

JARGON ISUP BAG 2 SIZES

KEY FACTS

Backpack straps for easy transport
Side Mesh Fabric for aeration
Holes in the bags base to drain off water

Size 1: 100 x 32 cm (for board 10.6 or less)
Size 2: 100 x 38 cm (for board 11.5 or more)

SELF INFLATING FLOATING VEST

Inflatable, neoprene back, very small pack size, valve reachable by mouth, click closure, including mesh pocket and drybag, quick drying, unisex, also for children, Sizes: XXXS to XXL

HAMMOCK Inflatable /Floating

Inflatable, With mesh insert, Very small pack size, Size: Approx. 100 x 140 cm

PHONE CASE Waterproof / Floating

SELF INFLATING KID VEST

JARGON SHORTY MEN Black/Blue neoprene performance line

Our new PERFORMANCE LINE impresses with its cool design and, of course, the excellent workmanship of exclusively high-quality materials. Napless Skin Neoprene on the chest keeps you warm, so you can wear a Shorty even on windy days. Arms and legs are covered and printed large. 4/3 mm thick material.

Sizes: S, M, L, XL, XXL

F2 SHORTY WOMEN Black/Rose neoprene performance line

Our classic neoprene offers high quality and good workmanship of materials. It is also extremely robust and offers maximum flexibility and mobility. In the chest area we have also used napless skin neoprene so that you can also wear the Shorty on windy days. Arms and legs are made of neoprene, which is elaborately printed to match our series. Each suit is available as Shorty and Full Suit! 3/2 mm thick material.

Sizes: XS, S, M, L

BAREFOOT WATER SHOE

KEY FACTS

Segmented sole enhance the flexibility in critical areas of the foot
Rubber wings added support to the ankle areas
Round toe
Nylon

Sizes: 5 - 6 - 7 - 8 - 9 - 10 - 11

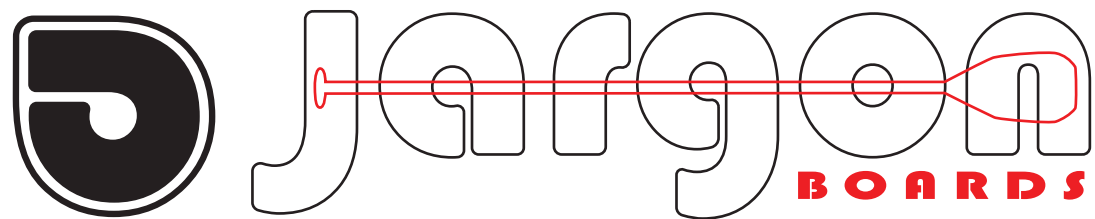

F2 NEOPRENE KIDS Turquoise

KID

Beautiful children's neoprene in a successful unisex design. Constant, soft 3 mm neoprene layer provides pleasant warmth in any water. The zipper is attached at the front so that the little water sports enthusiasts can get in and out all by themselves. The collar is slightly shorter than that of adults, so it does not cause skin irritation or pressure points on the sensitive skin of the child. All in all, a very high-quality children's neoprene that fits well and does not rub or pinch due to its flatlock seams, so that nothing stands in the way of a successful day in and on the water.

Size: 6 (Age 5-6) - 8 (Age 6-7)
10 (Age 7-8) - 12 (Age 8-9)
